

Note: Data from March 2016 to December 2016

In the publication screen of average rates of issuance for short-term corporate bonds, etc. (“CP issuance rates”), if weekly data from the week of March 22 (March 22-25, 2016) to the week of December 26 (December 26-30, 2016) or monthly data from March 2016 to December 2016 is designated, the designated weekly or monthly data will be displayed properly. (However, the upper left column in the publication screen will be displayed differently than usual, as the data is published retroactively.)

On the other hand, in the historical data download screen, weekly data from the week of March 22 to the week of December 26 or monthly data from March 2016 to December 2016 will be downloaded as usual.
