1. For unlisted share options, the figure means the number of unit.

2. As for the New Record for Share Options, Non-DVP is the only method applied. (There is no DVP method.)

3. "Book-entry transfer between JASDEC Participant Accounts" is the number of those from Delivering JASDEC Participants to Recipient JASDEC Participants. (In DVP book-entry transfer, the number of those from Delivering DVP Participants to JDCC)

4. "Book-entry transfer between Classified Accounts" is the number of those where Delivering JASDEC Participant and Recipient JASDEC Participant are one and the same.

5. "Exchange transactions" is the total number of book-entry transfer from Delivering Clearing Participants to JSCC and book-entry transfer from JSCC to Recipient Clearing Participants.

**Book-Entry Transfer System for Shares, etc. Share Options (2)**  
 Increase (new record), decrease (deletion), book-entry transfer and number of issues (number of cases/issues)

Number of cases

Number of issues

Fiscal year	Increase (New Record)	New Record by Non-DVP	New Record by Notice of the New Number of Share Options / Allotment-detail	Decrease (Deletion)	All Deletion	Partial Deletion	Book-entry transfer	NETDs	Book-entry transfer between JASDEC Participant Accounts	Book-Entry Transfer between Classified Accounts	Exchange transactions	Issues

- As for the New Record for Share Options, Non-DVP is the only method applied. (There is no DVP method.)
- "New Record by Non DVP" is the figure where a process for recording increase (per recording Participant) based on the "Notice of New Record" from issuers is calculated as one case.
- "Notice of the New Number of Share Options" under "New Record by Notice of the New Number of Share Options / Allotment-detail" is the figure where a process for record based on the "Notice of the New Number of Share Options" from JASDEC Participants is calculated as one case.  
Specifically, in a case where information of Participants is not recorded in Customer Account, etc., the figure is calculated per Classified Account of the recording JASDEC Participant.  
However, in a case where the information of Participants is recorded in Pledged Account, etc., the figure is calculated per Participant.
- "New Record by Allotment-detail" under "New Record by Notice of the New Number of Share Options / Allotment-detail" is the figure where a process for recording increase based on the allotment calculation is calculated as one case.  
Specifically, in a case where information of Participants is not recorded in Customer Account, etc., the figure is calculated per Classified Account of the recording JASDEC Participant.  
However, in a case where the information of Participants is recorded in Pledged Account, etc., the figure is calculated per Participant.
- "All Deletion" is the figure where a process of recording decrease based on all deletion is calculated as one case. Specifically, in a case where information of Participants is not recorded in Customer Account, etc., the figure is calculated per Classified Account of the recording JASDEC Participant. However, in a case where the information of Participants is recorded in Pledged Account, etc., the figure is calculated per Participant.
- "Partial Deletion" is the figure where a process of recording decrease based on the "Notice of Partial Deletion" from issuers and the "request to mediate the Demand for Exercise of Share Options" from JASDEC Participants is calculated as one case.
- "Book-entry transfer between JASDEC Participant Accounts" is the number of that from Delivering JASDEC Participants to Recipient JASDEC Participants. (In DVP book-entry transfer, the number of that from Delivering DVP Participants to JDCC)
- "Book-entry transfer between Classified Accounts" is the number of that where Delivering JASDEC Participant and Recipient JASDEC Participant are one and the same.
- "Exchange transactions" is the total number of book-entry transfer from Delivering Clearing Participants to JSCC and book-entry transfer from JSCC to Recipient Clearing Participants.
