^{1. &}quot;Book entry transfer between JASDEC Participant Accounts" is the number of that from Delivering JASDEC Participants to Recipient JASDEC Participants. (In DVP book entry transfer, the number of that from Delivering DVP Participants to JDCC)

^{2. &}quot;Book-entry transfer between Classified Accounts" is the number of that where Delivering JASDEC Participant and Recipient JASDEC Participant are one and the same.

^{3. &}quot;Exchange transactions" is the total number of book-entry transfer from Delivering Clearing Participants to JSCC and book-entry transfer from JSCC to Recipient Clearing Participants.

Book-Entry Transfer System for Shares, etc. Preferred equity investments (2) Increase (new record), decrease (deletion), book-entry transfer and number of issues (number of cases/issues)

umber of ca				New Record by									Issues
	Increase (New Record)	New Record by DVP	New Record by Non-DVP	Notice of the New Number of Units of Preferred Equity Investments / Allotment-	Decrease (Deletion)	All Deletion	Partial Deletion	Book-entry transfer	$_{ m NETDs}$	Book-entry transfer between JASDEC Participant Accounts	Book-entry transfer between Classified Accounts	Exchange transactions	Issues

	DATES 1 HAT D	ord by Non DVP" a	.1 (* 1	C	1 /	II D of the) 1 (1 #37 (

^{1. &}quot;New Record by DVP" and "New Record by Non DVP" are the figures where a process for recording increase (per recording Participant) based on the "Notice of New Record" from issuers is calculated as one case.

- 2. "Notice of the New Number of Units of Preferred Equity Investments" under "New Record by Notice of the New Number of Units of Preferred Equity Investments" from JASDEC Participants is calculated as one case.

 Specifically, in a case where information of Participants is not recorded in Customer Account or Holding Account (without request concerning a Special Preferred Equity Investor), etc., the figure is calculated per Classified Account of the recording JASDEC Participant.
 - However, in a case where the information of Participants is recorded in Pledged Account or Holding Account (with request concerning a Special Preferred Equity Investor), etc., the figure is calculated per Participant.
- 3. "New Record by Allotment-detail" under "New Record by Notice of the New Number of Units of Preferred Equity Investments / Allotment-detail" is the figure where a process for recording increase based on the allotment calculated as one case. Specifically, in a case where information of Participants is not recorded in Customer Account or Holding Account (without request concerning a Special Preferred Equity Investor), etc., the figure is calculated per Classified Account of Holding Account (with request concerning a Special Preferred Equity Investor), etc., the figure is calculated per Participant.
- 4. "All Deletion" is the figure where a process of recording decrease based on all deletion is calculated as one case. Specifically, in a case where information of Participants is not recorded in Customer Account or Holding Account (without request concerning a Special Preferred Equity Investor), etc., the figure is calculated per Classified Account of the recording JASDEC Participant. However, in a case where the information of Participants is recorded in Pledged Account or Holding Account (with request concerning a Special Preferred Equity Investor), etc., the figure is calculated per Participant.
- 5. "Partial Deletion" is the figure where a process of recording decrease based on the "Notice of Partial Deletion" from issuers is calculated as one case.
- 6. "Book-entry transfer between JASDEC Participant Accounts" is the number of that from Delivering JASDEC Participants to Recipient JASDEC Participants. (In DVP book-entry transfer, the number of that from Delivering DVP Participants to JDCC)
- 7. "Book-entry transfer between Classified Accounts" is the number of that where Delivering JASDEC Participant and Recipient JASDEC Participant are one and the same.
- 8. "Exchange transactions" is the total number of book-entry transfer from Delivering Clearing Participants to JSCC and book-entry transfer from JSCC to Recipient Clearing Participants.

Book-Entry Transfer System for Shares, etc. Preferred Equity Investments (3) Book-entry transfer and account balance (market value)

^{1. &}quot;Book-entry transfer (market value)" is the sum of the number derived from multiplying "the transferred number of units per issue per business day for each fiscal year/month" by "the closing price of each issue on the transfer date (if the closing price is not available on the transfer date, the most recent closing price before that day is used)".

With respect to the issues for split of preferred equity investments, those number of units (volume) changes from the effective date of split of preferred equity investments, meanwhile those price (closing price) reflects its effect from the ex-rights date immediately preceding the effective date of split of preferred equity investments.

Therefore, the data set forth above may be different from the real market value.

^{2. &}quot;Account balance (market value)" is the sum of the number derived from multiplying "the account balance (number of units) per issue as of the last business day for each fiscal year/month" by "the closing price of each issue on the same day (if the closing price is not available on the day, the most recent closing price before that day is used)".

With respect to the issues for split of preferred equity investments, those number of units (volume) changes from the effective date of split of preferred equity investments, meanwhile those price (closing price) reflects its effect from the ex-rights date immediately preceding the effective date of split of preferred equity investments.

Therefore, the data set forth above may be different from the real market value.

Book-Entry Transfer System for Shares, etc. Preferred Equity Investments (4) Distribution (number) of issues by the range of number of investors

^{1. &}quot;Real number of investors" is the one after identification and integration by the investors name within the data collection period, whereas "Accumulated number of investors" is the sum of the number of investors in each issue (before identification and integration by the investors name).

2. The total of the "Real number of investors" and "Accumulated number of investors" are included in the total. "Co-owned" means the case where an account is co-owned by two or more persons.

Uscar year enton

1. The total of the "Account balance" (both units and value) does not necessarily equal to the sum of "Individuals" and "Institutions" because the "Corowners" are included in the total. "Corowned" means the case where an account is corowned by two or more persons.

2. "Account balance (value)" is the sum of the number derived from multiplying "the account balance (number of units) by attribute of investors per issue as of the fiscal year (half year) end".

With respect to the issues for split of preferred equity investments, those number of units (volume) changes from the effective date of split of preferred equity investments, meanwhile those price (closing price) reflects its effect from the ex-rights date immediately preceding the effective date of split of preferred equity investments.

Therefore, the data set forth above may be different from the real market value.

Book-Entry Transfer System for Shares, etc. Preferred Equity Investments (7) Distribution of investors classified by age-group

^{1.} The figure covers the attribute "Individuals" only. "Institutions" and "Co-owners" are not included.

^{2. &}quot;Unknown" is the figure of participants (investors) whose birthday is not notified.

^{3. &}quot;Value held by age-group of investors" is the sum of the number derived from multiplying "the account balance (number of units) by age-group of investors per issue as of the fiscal year (half year) end" by "the closing price of each issue at the fiscal year (half year) end". With respect to the issues for split of preferred equity investments, those number of units (volume) changes from the effective date of split of preferred equity investments, meanwhile those price (closing price) reflects its effect from the ex-rights date immediately preceding the effective date of split of preferred equity investments. Therefore, the data set forth above may be different from the real market value.
